

AYUSH BHALLA

BCA – Artificial Intelligence | AI/ML • Data Analytics • Software Development

Bareilly, Uttar Pradesh | +91 8948507055 | ayushbhalla469@gmail.com | LinkedIn: [Ayush Bhalla](#) | GitHub: [AyushBhalla05](#) | Portfolio: [Ayush Bhalla](#)

EDUCATION

Bachelor of Computer Applications (Artificial Intelligence) |

2024 – 2027

Invertis University, Bareilly

Currently pursuing BCA (Artificial Intelligence); currently in 5th semester.

Core areas: Artificial Intelligence, Machine Learning, Data Analytics, Python, DBMS, DSA, Operating Systems, Linux/Unix, Power BI and Web Development.

Class 12 | JP Inter College

2024

Percentage: 67.6%

Class 10 | JP Inter College

2021

Percentage: 73.5%

TECHNICAL SKILLS

Programming: Python, C, Java, JavaScript, SQL

AI / ML: Artificial Intelligence, Machine Learning, Deep Learning, Computer Vision, NLP, Generative AI

Data / Analytics: Power BI, Pandas, Matplotlib, Excel, Jupyter Notebook, Google Colab

Development: Flask, HTML, CSS, JavaScript, REST APIs

Database: MySQL, SQL, DBMS

Tools: Git, GitHub, VS Code, MATLAB, Simulink, Linux, Kali Linux, WSL, Burp Suite

INTERNSHIP

Artificial Intelligence Intern | OutriX, Virtual

Jul 2025 – Sep 2025

- Learnt core concepts of Artificial Intelligence, Machine Learning, and data-driven problem solving.
- Worked on AI-related assignments and practical project tasks using Python and analytical thinking.
- Improved understanding of AI workflows, research methodologies, and real-world technology applications.
- Developed technical, problem-solving, and project implementation skills through hands-on learning activities.

PROJECTS

Explainable AI for Diabetic Retinopathy Screening in Rural India |

2026

Smart India Hackathon – AI/Computer Vision

- Designed a MATLAB-based explainable retinal image analysis pipeline for rural diabetic retinopathy screening.
- Proposed image quality assessment, enhancement, retinal structure/lesion analysis, DR severity grading and Grad-CAM explainability.
- Focused on quality-gated AI, uncertainty-aware predictions, automated reports, offline-first workflow and smart referral.
- Worked with datasets including IDRiD, APTOS 2019, DRIVE and Messidor-2.

GesturePilot | Python • OpenCV • MediaPipe • Computer Vision

2026

Project: [GitHub Repository](#)

- Built a real-time gesture-control system using Python, OpenCV and MediaPipe for hand tracking and gesture recognition.
- Implemented gesture-based PC controls for media control, volume adjustment, screenshots, browser navigation and application launching.

Local Food Wastage Management System | Python • Streamlit •

2026

SQLite • Pandas • SQL

Project: [GitHub Repository](#)

- Built a Streamlit-based application connecting surplus food providers with receivers to reduce local food wastage.
- Implemented CRUD operations, filtering, dashboards, expiry alerts, CSV export and SQL-powered analytical queries using SQLite and Pandas.

CERTIFICATIONS

- Course on Computer Concepts (CCC) — SELF ONLINE, Online | May 2024 – Jul 2024
- Introduction to Artificial Intelligence — LinkedIn Learning | Completed Jan 7, 2026

INTERESTS

Artificial Intelligence • Machine Learning • Data Analytics • Computer Vision • Web Development • Cybersecurity
